THE NEW COLUMBIA MANUFACTURING CORP.
A Division of C.R. Laurence Co., Inc.

COLUMBIA MANUFACTURING IS NOW A MEMBER OF THE C.R. LAURENCE FAMILY OF COMPANIES

We are very proud to announce that C.R. Laurence Company has acquired Columbia Manufacturing Corp., a well respected name with over 50 years of experience in the screen products industry. We are now operating Columbia through a new entity that is wholly owned by C.R. Laurence Co., Inc.

Columbia's manufacturing plant will continue to operate in Gardena, California, and is now open and ready to provide the same high level of service that you are accustomed to receiving from C.R. Laurence. We've made investments and enhancements in the operation to increase capacity, improve the service level, and upgrade quality, design, and product assortment. Our continuing commitment is to provide a full range of products, literature and technical support to our customers.

If you are currently a customer of Columbia Manufacturing rest assured that we have a full inventory of finished doors and accessories ready to fulfill your orders. C.R. Laurence customers have access to the complete line of Columbia products through their nearest C.R. Laurence Service Center.

Lloyd W. Talbert
President and C.O.O.
C.R. Laurence Co., Inc.

C.R. LAURENCE COMPANY
CRL US ALUMINUM
crlaurence.com | usalum.com

Glazing, Screen, Architectural, Railing, Construction, Industrial, and Automotive Supplies

CRL offers two levels of CRL Security Screen™ protection in standard and custom sizes to meet your security needs:

CRL Security Screen™ Premium feature our maximum strength frames that take protection "to the max" and are perfect for residential properties, government installations, prisons, commercial properties, and other structures that require the ultimate in security. The heavy extruded aluminum (Grade 6063-T6) frame size is 1" x 3-3/8" (25 x 86 mm). Sliding and swinging screen doors come with heavy-duty three-point latching systems, delivering the ultimate in protection against forced entry.

CRL Security Screen™ Slimline are designed to be aesthetically pleasing for both residential and commercial applications. When used by businesses in commercial applications, Slimline Frames help ensure protection of property and inventory in the same manner they would protect your home and belongings. The extruded aluminum frame size is 13/16" x 3" (20 x 76 mm). As with the Premium Security Screens, all Slimline Screens feature a three-point latching system to provide increased protection against forced entry. The Slimline Door Series comes complete with a hinged side adjustment channel and bottom adjustment channel.

THE BENEFITS OF CRL SECURITY SCREEN™

PROTECTION AND PEACE OF MIND
- CRL Security Screen™ Doors and Windows Provide a Security Barrier to Unlawful Entry, Discouraging Intruders
- Designed for Security Applications, CRL Security Screen™ Helps to Prevent Burglars From Gaining Access, While Also Providing Homeowners With Ease of Use, Entry, and Exit
- Above All, CRL Security Screen™ Doors and Windows are Made Strong, Secure, and Durable to Provide Years of Trouble-Free Use
- CRL Security Screen™ Provides Protection From Flies, Mosquitoes, and Other Pests

VISIBILITY
- Provides Security Without Compromising a Clear and Unobstructed View of the Outdoors
- As a Mesh-Screen Product, CRL Security Screen™ Allows the Free-Flow and Circulation of Air for Your Comfort
- Provides Energy Savings From Reduced Need for Air-Conditioning
- Blocks an Average of 60% of Harmful UV Rays

### ARCHITECTURAL DESIGN AND APPEAL
- Security Doors and Window Screens are Not Only Made to be Strong, but Also to Enhance and Modernize the Architectural Appeal. There is No Compromise With Aesthetics as With Conventional Bar and Grille Systems
- Easily Incorporated into Almost All Types of Doors and Windows

STANDARD ALUMINUM FRAME COLORS
White, Black, Brown, Sahara Brown, Silver, Sahara Gray, Light Gray, Almond, and Bronze

Clear Vision	Impact Resistance	Energy Savings	No Bars	Protection from Insects
Air Flow and Circulation	Appealing Design	60% UV Blockage	Easy Entry and Exit	Standard Sizes and Custom Made

C.R. LAURENCE COMPANY
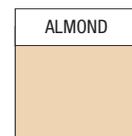

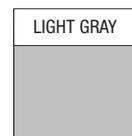

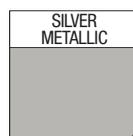

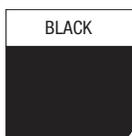

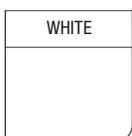

CRL SECURITY SCREEN™ DOUBLE/SINGLE SLIDING DOORS

CRL Security Screen™ Double/Single Sliding Patio Doors can protect either the single sliding glass door or both glass panels. Double Security Patio Doors protect the sliding glass door and the stationary glass door panel from intruders. Double and Single Security Doors have a three-point latching system with one simple locking action. CRL Security Screen™ Patio Doors filter out 60% of the sun's harmful U.V. rays. Both the Single and Double Security Doors are available in an aluminum frame surround system that reduces installation time.

CRL SECURITY SCREEN™ FRENCH SECURITY DOORS

CRL Security Screen™ French Doors provide security with elegance and air flow for swinging door applications. CRL Security Screen™ French Door Systems have two operating doors with no center post when both doors are open, providing an unobstructed view. CRL Security Screen™ French Doors can be designed for a left or right active operating door with the security of the inactive door locked in place. These specially designed multi-latching point doors are made strong and durable to provide years of trouble-free protection.

5 year WARRANTY

Powder Coat Warranty Five Years From Date of Original Installation on Mesh

Visit our web sites at **crlaurence.com** to learn more about CRL Security Screen™. To speak with a CRL Security Screen™ Systems Technician, please call (800) 421-6144, and ask for Ext. 7520.

CRL SECURITY SCREEN™ HINGED SECURITY DOORS

CRL Security Screen™ Hinged Doors are often the first line of defense to protect you and your property. CRL Security Screen™ Hinged Doors are available to accommodate a wide range of swinging door applications, either in an interior or exterior mount configuration. All CRL Security Screen™ Doors are manufactured with 316 marine grade black powder coated stainless steel mesh. CRL Security Screen™ Doors are architecturally designed to easily incorporate into aluminum, vinyl, or wood framed openings, for both new and existing structures.

CRL SECURITY SCREEN™
FIXED WINDOW SECURITY SCREENS

CRL Security Screen™ Fixed Window Security Screens are the ideal solution to cover and protect non-opening windows. CRL Security Screen™ Fixed Window Security Screens feature a concealed fastening system and can be installed on the interior or exterior. The slim frame of the CRL Security Screen™ Fixed Window Security Screen allows the screen to blend with any architecture. CRL Security Screen™ Fixed Window Security Screens offer flexibility for mounting on new and existing structures. Applications include: schools, day care centers, psychiatric and detox centers, government buildings, adult care facilities, and private residences.

CRL SECURITY SCREEN™
KEYED LOCKING WINDOW SCREENS

CRL Security Screen™ Keyed Locking Window Screens provide keyed access for window cleaning while providing a secure, tamper resistant keyed locking system. Screens are designed to be an inside mount or surface mount system on fixed, non-operable glass panels only.

CRL SECURITY SCREEN™
QUICK ESCAPE WINDOW SCREENS

CRL Security Screen™ Quick Escape Window Screens have an easy release push mechanism that also acts as a secure, tamper resistant device that locks the screen closed for peace of mind. Quick Escape Window Screens are designed to be an inside mount or surface mount system.

CRL SECURITY SCREEN™ WARRANTIES

5 year WARRANTY   **1** year HARDWARE

- *Powder Coating Color Warranty* for a period of five years from the date of original installation on mesh and sash panels.*
- *Hardware Warranty* for a period of one year from the date of original installation on all hardware (hinges, door closers, locks, and rollers).*
- ** Terms and conditions apply.*

36" x 80"	36-1/4"	35-1/4"	80-3/4"	79-1/4"

CRL Hinged Steel Screen Door Sizes

NOMINAL DOOR SIZE	WIDTH OPENING MAX.	WIDTH OPENING MIN.	HEIGHT OPENING MAX.	HEIGHT OPENING MIN.
30" x 80"	30-1/4"	29-1/4"	80-1/4"	79-1/4"
32" x 80"	32-1/4"	31-1/4"	80-1/4"	79-1/4"
36" x 80"	36-1/4"	35-1/4"	80-1/4"	79-1/4"

Hinged Door Worksheet

Measurement A _____ (Width)

Measurement B _____ (Width)

Measurement C _____ (Width)

Measurement D _____ (Height)

Specify width first, height second.

Measure the opening width (horizontally) as shown. Take three measurements, one across the top, middle and bottom of the door (A, B, C). Record the smallest dimension.

Measure the opening height (vertically) as shown (D). Record the smallest dimension. Write down measurements.

Note: Place the screen door near the opening of where the door is to be hung. Make sure the front of the door is facing the outside. (Screen wire will be on inside of door)

CRL Steel Security Screen Door

Your Steel Security Screen Door will mount on the surface of your existing trim. There must be at least 1-1/4" (31.8 mm) of flat surface on both sides and top of door frame to mount to.

1. Measure Width: At top (A), center (B), and bottom (C). Use the smallest measurement
2. Measure Height: At both sides of opening from threshold to door header (D).
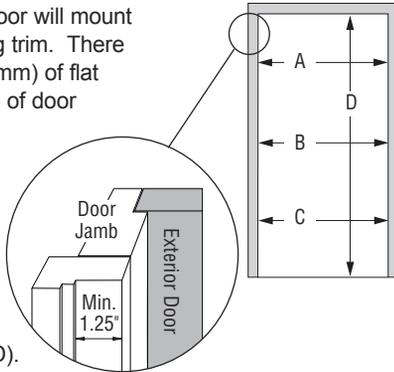

CRL Patio Sliding Screen Door
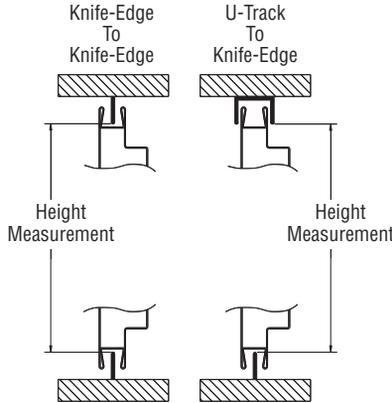

Calculate Net Door Size Width and Height:
Door Width is Equal to Width of Sliding Door.

Door Height is Equal to Height Measurement Less 3/4" (19 mm).

This Will Be Net Size:

Width_____ Color_____

Height_____ Door_____

CRL HINGED VINYL SCREEN DOORS

THE NEW
COLUMBIA
MANUFACTURING CORP.
A Division of C.R. Laurence Co., Inc.
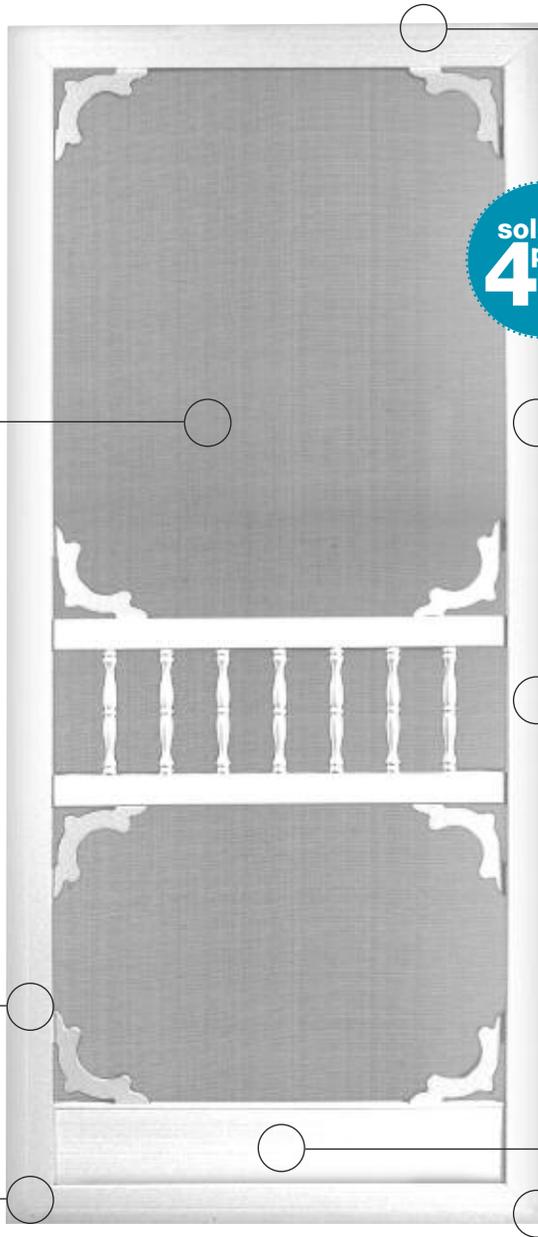

sold in **4** packs

Pneumatic Door Closer Included

Spline Applied Screen

Vinyl Construction Never Needs Painting

Push Button Latch Included

Side Adjustment Channel and Bottom Adjustment Channel Included

Solid Vinyl Kick Panel

Fusion Welded Corners
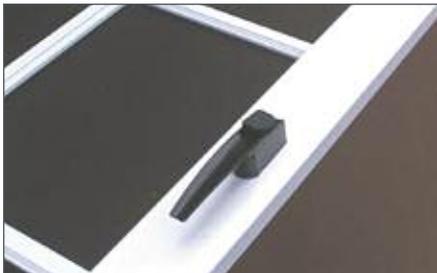

All installation and mounting hardware is included with each vinyl screen door. Only basic tools are required for installation.

Vinyl screen doors incorporate a hinge bar, which eliminates the need of trimming to fit.

Our vinyl screen doors never need painting or finishing. Easy to maintain by just simply wiping off any dirt.

CRL Salem Hinged Vinyl Screen Doors

- **Vinyl Frame has Interior Webbing for Maximum Support and Strength**
- **Strong Fusion Welded Corners**
- **No Cutting Required**
- **No Special Tools Needed for Installation**
- **Charcoal Fiberglass 18 x 16 Mesh**
- **Pneumatic Door Closer and Installation Hardware Included**

CRL Hinged Vinyl Screen Doors do not require cutting, never need painting, and will not peel, chip or splinter. Clean with soap and water for easy maintenance. They feature a separate hinge-bar for easy handing choices. The bottom expanders allow for a perfect fit every time. The door frame is 3" (76 mm) wide x 7/8" (22 mm) thick.

Adjustable Top Hood

Reversible

Long Lasting Epoxy Finish on Steel Sliders and Solid White Vinyl on Titan Series

Strong UV Fade Resistant Handle

All Hardware Included

Patented One Piece Construction on Steel Sliders (Fusion Welded Corners on Vinyl Titan Series)

Adjustable Bottom Hood

Our patented one piece construction technique makes our doors the strongest in the market.

U.S. Patent No. 5,628,114

Our rollers are specifically designed to work on any track. This allows our doors to glide effortlessly without problems.
NOTE: Steel roller pictured is available with Titan Series only.

Each of our patio screen doors is designed for height adjustment to fit most openings. Only a Phillips head screwdriver is required.

CRL Replace-All Sliding Screen Doors

- **Three Stock Sizes Cover Over 90% of the Demand for Replacement Doors**
- **Universal Left or Right Hand Mounting**
- **Strong Roll Formed Steel Frame**
- **Custom Sizes Available on Request**

These CRL Replace-All Sliding Screen Doors are a quick and easy replacement for worn and torn sliding screen doors. They have a variable height of 78" to 80" (1.98 to 2.03 m), with a full 2" (51 mm) vertical expansion adjustment.

The Replace-All features: a strong roll formed steel frame with baked enamel finish; durable charcoal fiberglass screening; a patented automatic, self-latching handle with "No Lock-Out" feature; nylon roller assemblies for quiet, smooth operation; universal left and right hand mounting.

CRL Architectural Steel Sliding Screen Doors

- **Adjusts to Fit Opening Heights from 78-1/4" to 81" (1.99 to 2.06 m)**
- **Charcoal Fiberglass 18 x 16 Mesh**
- **1" (25 mm) Vinyl Bug Flap**
- **Custom Sizes and Extruded Aluminum Models Available on Request**

CRL Architectural Steel Sliding Screen Doors utilize a patented one-piece roll formed frame construction technique, making it stronger, more durable and at the same time eliminates racking. Frames are crimp seam formed, corner stitched, and both are chemically bonded to eliminate gaps. Doors have spring loaded adjustable hoods with nylon wheels that are held in place with binding posts to eliminate continuous readjusting. Sliders come assembled for consistent quality and performance.

An installation hardware pack, including J-hook with attaching screws for patio door locking, is included. Only basic tools are required for installation with easy-to-follow instructions.

CRL Titan Vinyl Sliding Screen Doors

- **Standard Door Adjusts to Fit Opening Heights From 78-1/4" to 80-3/4" (1.99 to 2.05 m)**
- **Tall Door Adjusts to Fit Opening Heights From 94-1/4" to 96-3/4" (2.39 to 2.46 m)**
- **Durable, Strong, Long-Lasting Vinyl Frame**
- **Double Cross Bars for Added Strength**
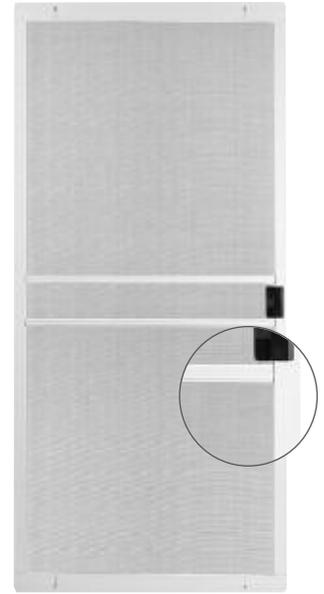

CRL Vinyl Patio Screen Door frames, unlike metal, will not corrode or peel. The color is all the way through so scratching and dings are never a problem. The frame offers interior webbing and fusion welded corners for a stronger door with maximum support that holds up against everyday wear and tear. Patio screen doors have adjustable hoods with steel wheels, and are held in place with binding posts to eliminate continuous readjusting. Titan Sliders come assembled for consistent quality and performance. The Titan Vinyl frame size is 2" (51 mm) wide and 1" (25 mm) thick.

NOTE: Lowest height is attained by removing the top hood. An installation hardware pack includes J-hook with attaching screws for patio door locking. Only basic tools are required for installation with easy-to-follow instructions.

CRL K.D. Sliding Screen Door Kits

- **For Sliding Patio Screen Doors**
- **Can Be Cut Down to Fit Any Size Opening**
- **Easy to Assemble and Install**
- **Gray, Bronze, and White Available**

Now you can offer your customers a quality made, custom fit sliding screen door right from your stock simply by keeping popular CRL K.D. Sliding Screen Door Kits on hand. Kits come complete with all component parts; you add just the screen wire and retainer spline [recommended spline size is .150" (3.8 mm)]. The Nylon Rollers and Latching Handle are pre-installed, so you won't have to do any drilling, notching or fitting of these parts. Three colors (gray, bronze, and white) are available to fit doors up to 97" (2.46 m) tall. Each door kit is packaged individually to ship via U.P.S.

CRL Aloha Vinyl K.D. Sliding Screen Door Kits

- **Corrosion Resistant White Vinyl Frame Will Withstand Extreme Salt-Air or Arid Environments**
- **Stainless Steel Rollers, Stainless Steel and Plastic Handle Assembly, Heavy Vinyl Corners**
- **Metal Reinforced Vertical Stiles Prevent Flexing**

CRL Aloha Vinyl K.D. Sliding Screen Doors stand up to the extremes of salt-air environments and dry climates better than any standard aluminum screen door. High or low humidity levels, corrosive salt-air climates, or dusty and gritty elements present the perfect challenge for the Aloha Screen Door. The vertical stiles have a concealed metal reinforcement angle bar built in to prevent "flexing" during use to add years of reliable service. The stainless steel rollers have been positioned near the molded corners for optimum performance and more stability. Aloha Kits are individually packaged with everything you need, except the screen wire and .185" (4.7 mm) size retainer spline. All Kits can be shipped U.P.S.

B784	Dark Bronze

One closer per pack. Minimum order: 1 pack. Finishes can be combined for quantity pricing.

CRL "Kelly Klozer" Sliding Screen Door Closers

- **Fits Doors Up to 60" Wide**
- **Available in Three Finishes**
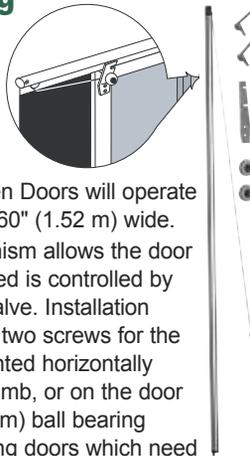

The CRL "Kelly Klozer" for Sliding Screen Doors will operate on right or left handed closing doors up to 60" (1.52 m) wide.

A durable spring and pneumatic mechanism allows the door to open fully and close slowly. Closing speed is controlled by means of a spring-tensioned adjustment valve. Installation requires two screws on the closer unit and two screws for the universal bracket. The closer can be mounted horizontally above the door, vertically adjacent to the jamb, or on the door itself. Kit comes with optional 1-1/4" (32 mm) ball bearing rollers, axle bolts, and top guides for existing doors which need replacement hardware. It is constructed of 1" (25 mm) diameter aluminum tube that may be painted to match any exterior.

CAT. NO.	COLOR	MAX. DOOR WIDTH
PL15535	Satin Anodized	60" (1.52 m)
PL15536	Bronze Powder Coat	60" (1.52 m)
PL15537	White Powder Coat	60" (1.52 m)

One bar per pack. Minimum order: 1 pack. Finishes can be combined for quantity pricing.

CRL Stainless Steel Patio Door Sill Track Covers

- **Repairs Damaged or Corroded Patio Door Track Rails**
- **Easy to Install**

CRL Sill Track Covers are designed to repair damaged and corroded patio door tracks. Simply remove the door, place Sill Track Cover over the threshold track, then re-install the door. The door rollers will glide smoothly and quietly as if brand new.

Typical installation using large and small sill track covers

6702A Large   **6701A** Small

Minimum order: 1 each. Sizes can be combined for quantity pricing. A packing charge will be added to orders of fewer than 10 combined track covers.

CRL Sliding Screen Door Grilles

- **Protects Screen Cloth From Small Children and Pets**
- **Constructed From Heavy-Duty Steel**
- **Very Attractive and Easy to Install**
- **Available in Gray, White, and Bronze**

These attractive CRL Sliding Screen Door Grilles are 33" (838 mm) tall, and have mounting tabs that extend 2" (51 mm) on either side of the grille to fit a range of door widths. They are made from heavy-duty steel with rattle-free interlock construction. The grille's Florentine pattern will not mar the view or the airflow. Three sizes are available to fit any sliding screen door from 29" to 49" (737 to 1245 mm) wide. Available in three long-life finishes. Takes only minutes to install.
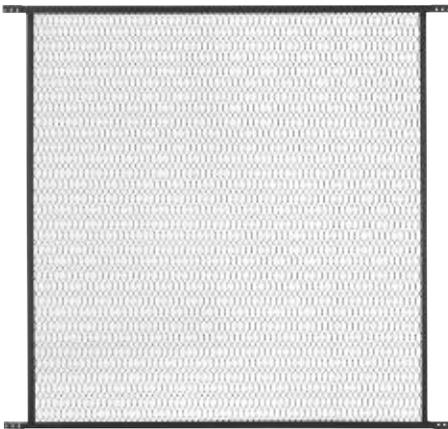

CAT. NO.	COLOR	WIDTH RANGE	GRILLE HEIGHT	PACK QTY.
PG26	Gray	29" to 31" (737 to 787 mm)	33" (838 mm)	6

Minimum order for shipment is six each; fewer than six may be purchased at the trade counter of any CRL Service Center. Sizes and finishes can be combined for quantity pricing.

CRL Swinging Screen Door Grilles

NEW!

- **Close Weave Mesh Protects Screen Wire From Children and Pets**
- **Available in Long-Life Satin Anodized, White, and Bronze Finishes**
- **One Width Fits 30" to 36" Wide Doors**

These new CRL Swinging Screen Door Grilles are only 24-5/8" (625 mm) tall, the perfect height to fit both screen and storm doors where a grille with a shorter height is required to accommodate a kick plate. The grille mesh is 26" (660 mm) wide, and has mounting tabs that extend 4-1/4" (108 mm) on either side of the grille. They are fabricated from heavy-duty aluminum in three long-life plated or painted finishes. The pressed and dimpled outer frame provides rattle-free construction. The grille's close weave expansion produces superior screen cloth protection while not diminishing air flow. Installs in minutes.

CAT. NO.	COLOR	WIDTH RANGE	GRILLE HEIGHT	PACK QTY.

Screen Door Kits

CRL Euro Retractable Screen Door Kits

- **Fast, Easy Installation - Cut and Assemble on the Job Site**
- **Fits Most In Swinging and Out Swinging Doors up to 48" Wide**
- **Available in Two Standard Heights: 84" and 96"**

The CRL Euro Retractable Screen Door utilizes unique design features and versatility to fit most applications. The top and bottom rails, jamb, and screen pocket are made from extruded aluminum. The vinyl end caps and handle have a UV additive for long life. Each door has easy-to-see-through charcoal fiberglass screen mesh.

This door kit is non-handed, so it's easily field reversible for left or right openings. It can be mounted on the outside of the door for inswinging doors or inside of the door for outswinging doors. Two simple chop saw cuts size the door to desired height and width. Each kit comes complete with special clips for surface mounting the door to the exterior jamb.

The CRL Euro Retractable Screen single door design has a unique, comfortable and easy-to-use positive lift and latch handle that keeps the door firmly closed, even in windy areas. There's no need to break a magnetic field to release the door, an important advantage, especially for the elderly.

Screen mesh rides in a top and bottom rail with heavy wool pile both inside and out. The rails are deep enough to prevent the wind from blowing the mesh loose, and yet the mesh will pull loose if a person or animal inadvertently walks into it. If the mesh does get pulled from either the top or bottom track, simply unlatch the door, let the screen retract into the housing, then pull the door closed; the screen will automatically reset itself into the tracks. Should the screen ever become torn or damaged, we carry a simple-to-install Re-Screening Kit. All kits can be shipped U.P.S. For complete details, contact CRL Technical Sales, or go to **crlaurence.com**.

JUST MEASURE

CUT

INSTALL

CRL Euro Retractable Window Screens provide the solution for insect control in a complete, easy to install package. You have the option of selling the kits for "Do-It-Yourself" homeowners, or you can offer to make a one-trip service call to measure, cut, and install the screens at the customer's home. Average time to cut and install is less than 20 minutes per screen.

All CRL Euro Retractable Window Screens have a big maximum inside window height of 66" (1676 mm). Each Kit includes: easy-to-follow instructions, powder coated extruded aluminum lineals, durable 18 x 16 mesh charcoal fiberglass screen mesh, and quality mounting hardware. The CRL Euro Retractable Window Screen is held into the window jamb with a small screw in each of the two upper mounting pads (holding the cassette), and one in each of the two screen guide channels.

Use the Dealer Demonstration Display in your showroom or bring to your sales calls to effectively demonstrate the benefits of Retractable Screen products. The combination display features a Euro Retractable Window Screen on one side and a Euro Retractable Screen Door on the other side.

CRL Heavy-Duty Fiberglass Screen Mesh

- **18 x 14 Mesh .013" Thread Diameter Charcoal Colored Screen Mesh**
- **Excellently Suited for Screened-In Patios**

Our Heavy-Duty Fiberglass Screen Mesh is made from a sturdy .013" diameter thread. This 18 x 14 charcoal colored mesh is ideal for screened-in patios and screen rooms. It has great durability and resistance to the effects of the weather. Now in widths up to 96" for those big outdoor jobs.

HEAVY-DUTY FIBERGLASS SCREEN MESH - 18 X 14 MESH
ROLL LENGTH: 100 FEET (30.5 M)

CRL Super Clear Vinyl Film

- **Indoor Window Insulator Film**
- **Available in Two Thicknesses**
- **Convenient 50' (15 m) Rolls**

NEW!

Many homeowners who have insect screen panels made for their porch also have a matching set of clear vinyl film panels which they can change out from season to season. CRL Super Clear Vinyl Film rolls into screen frame just like insect screen. The solid clear vinyl prevents wind, moisture, and dust from entering, while still offering a clear view outside. Made from double polished clear vinyl, this film will last for years. Super Clear Vinyl Film can be used in conjunction with our Cat. No. WSF17W Extruded Aluminum Screen Frame, which comes in Mill, Gray, Bronze, White, and Beige colors. See page CL57 for more details.

Minimum order: 1 roll. All Screen Rolls can be combined for quantity pricing.

CRL Pet Screen is an ultra-strong, pet resistant screen made from vinyl-coated polyester, and with its 16 x 11 mesh it still allows excellent outward visibility. 50 and 100 linear feet per roll.

CRL 20 x 20 Invisible Clear Advantage Fiberglass Insect Screen Mesh

- **.008" Thread Diameter Mesh**
- **Allows 50% More Light to Pass Through**
- **Dramatically Improves Air Flow**
- **Available in Four Widths**

CRL's 20 x 20 fine mesh Clear Advantage Fiberglass Screen offers the maximum in insect protection, while the thin .008" diameter thread offers both increased visibility and air flow. Another benefit of the thinner thread is that the screen is nearly undetectable when viewed from the outside. CRL Clear Advantage offers all of these benefits, and yet there is no loss of strength. The bursting strength has been tested and surpasses the more common 18 x 16 mesh fiberglass screen.

CLEAR ADVANTAGE FIBERGLASS INSECT SCREEN MESH

CAT. NO.	COLOR	WIDTH	ROLL LENGTH

Minimum order: 1 roll. All Screen Rolls can be combined for quantity pricing.

NOT TO SCALE

CRL 20 x 20 Micro-Weave Insect Screen Mesh

- **.013" Thread Diameter Micro Mesh to Keep Out the Smallest Insects**
- **Vinyl-Coated for Long Life**
- **Popular for Screen Enclosures**

CRL Micro-Weave Insect Screen Mesh is very popular in the South, and anywhere you find very tiny insects and gnats, sometimes referred to as "No-See-Ums". This mesh is made from a heavier .013" diameter vinyl coated fiberglass thread that is used extensively on screen enclosures and patios.

Minimum order: 1 roll. All Screen Rolls can be combined for quantity pricing.

CRL Solar Screen Mesh

• **Helps Reduce Energy Costs**

• **Low Prices on All Colors and Sizes**

Solar Screen Mesh cuts energy costs by reducing heat gain from direct sunlight. This unique weave is made of vinyl-coated fiberglass that screens out insects while allowing natural airflow. You can install it in any screen frame, but the most efficient use is with CRL's Cat. No. WSFS34 Standoff Frame, which holds the wire away from the glass, allowing the heat to dissipate.

54 x 18 Mesh

Solar Screen Absorbs and Dissipates as much as 70% of Transmitted Heat

Glass — Without Solar Screen

Glass — With Solar Screen
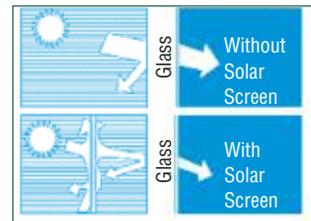

Even-Weave Absorbs and Dissipates as much as 80% of Transmitted Heat

CRL Even-Weave Solar Screen Mesh

• **Uniform 17 x 14 Weave**

• **Blocks Up to 80% of the Sun's Heat**

• **Made From Durable Polyester**

• **Available in Three Colors**

Even-Weave Solar Screen Mesh is the latest generation of exterior shading products. The main difference between CRL Solar Screen and Even-Weave is that the 17 x 14 weave is uniform like an 18 x 16 mesh, and not a staggered weave like Solar Screen. This strong vinyl-coated polyester wire is UV protected, mildew and fade resistant, and is easily washed with soap and water.

CRL Screen Consultation Service

To fabricate screens in production-level quantities, working with the right tools and shop equipment will make the difference between a profitable screen and one that costs more than you anticipated.

CRL has decades of experience in the field of window and door screens and trained Technical Sales personnel to provide assistance in selecting the fabrication tools and supplies that will best suit your needs and fit your budget. Contact them at (800) 421-6144 in the U.S., (877) 421-6144 in Canada or (323) 588-1281 International. Ask for Door and Window Technical Sales at Ext. 7520. You can also send e-mail from the home page of **crlaurence.com**. Click on Contact Us, and then click on Technical Sales.

CRL Stainless Steel Screen Wire

- **304L Alloy 18 x 18 Stainless Steel Mesh**
- **Superior Insect Protection**
- **Black Powder Coated Finish**

NEW!

CRL Stainless Steel Screen Wire is made from a .0075" diameter 304L alloy stainless steel thread. The 18 x 18 mesh is much stronger than conventional screen cloth and offers superior insect protection. This mesh has a black powder coated finish to cut down on glare and provide added corrosion protection. Another added bonus to using stainless steel is that it can be used in direct contact with treated wood. 50 foot rolls are available in two standard widths.

STAINLESS STEEL SCREEN WIRE

CAT. NO.	COLOR	WIDTH	LENGTH
SSM36BL	Black	36" (914 mm)	50' (15.2 m)
SSM48BL	Black	48" (1219 mm)	50' (15.2 m)

Minimum order: 1 roll. All Screen Rolls can be combined for quantity pricing.

CRL Bronze Screen Wire

- **Made from 90% Copper and 10% Zinc**
- **18 x 14 Mesh .011" Thread Diameter**
- **Oxidizes to a Rich Bronze Color**
- **Excellent Strength and Durability for Coastal and Desert Regions**

NEW! 50 FT ROLLS

CRL Bronze Screen Wire has an 18 x 14 mesh and rolls into the screen frame just like aluminum screen. Although it has a shiny brass color when new, once exposed to weather it will slowly turn into a rich bronze color. Made to last for years, even in the harshest environments. Affordable and easy to handle 50 foot rolls are available in five widths.

BRONZE SCREEN WIRE

Minimum order: 1 roll. All Screen Rolls can be combined for quantity pricing.

CRL Galvanized Steel Screen Wire

- **Extra Strength Screen Wire is Stronger Than Aluminum in Every Application**
- **18 x 14 Electro-Statically Galvanized Mesh**

NEW! SIZES

Use our Galvanized Screen Wire when you require extra strength. This is a tough .009 gauge, 18 x 14 mesh electro-statically galvanized mesh. 100 foot rolls are available in four widths. **NOTE:** This material is steel and therefore is subject to corrosion over time when used in exterior applications.

CRL Columbia Manufacturing Roll Forming Capabilities

- **Custom Sized Shapes Made to Your Precise Specifications**
- **Roll Formed Aluminum From .018" to .039" or Steel From .015" to .018"**
- **Private Labeled Boxes Using Your Company's Artwork**
- **Production Capabilities up to 70,000 Linear Feet Per Day**
- **Stock Colors: Mill, White, Bronze, Gray, and Navajo**
- **Custom Colors Available on Request**

CRL Columbia's 73,000 sq. ft. roll forming plant is located in Gardena, California and can provide you with a multitude of services to fit your window and door lineal requirements. Our 9 precision roll forming machines can continuously form both aluminum and steel material in whatever shape, color, and length needed and then package them in unmarked or printed boxes with your brand label.

Each of our machines uses precision formed roll tools made to your specification to produce quality finished parts with very short lead times.

To learn more about CRL Columbia Manufacturing roll forming capabilities and to receive a quotation for your job requirements, please contact us by e-mail at **customerservice@columbiamfg.com** or call us toll free at (800) 729-3667 and ask for extension 3973.

PL16265	White

Minimum order: 1 pack.

CRL Plastic Wickets

• Available in Gray, White, Bronze or Black

Our Plastic Wickets for screen frames allow for access to casement or awning window operators. They have a snap-type latch for sure closure. Install the same screen wire in these plastic wickets as the rest of your screen. CRL recommends using Cat. No. 5C135 Spline with aluminum wire and Cat. No. 5C175 Spline with fiberglass wire. 1 per package.

PLASTIC WICKETS

CAT. NO.	FINISH	WIRE TYPE
828M	Gray	No-Wire
828BRZ	Bronze	No-Wire
828W	White	No-Wire
828BL	Black	No-Wire

Minimum order: 1 each. All Aluminum Wickets can be combined for quantity pricing.
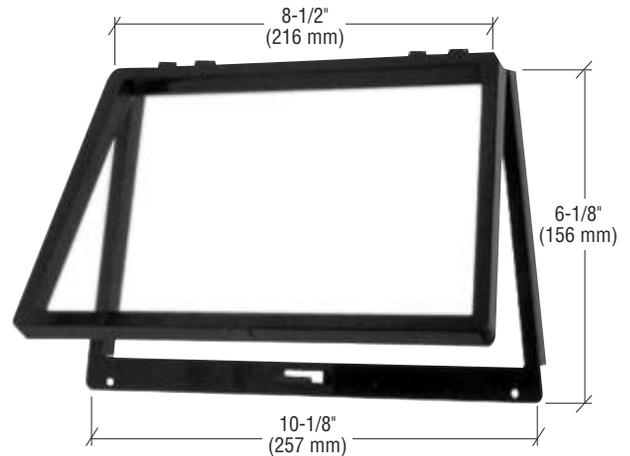

CRL Aluminum Wickets

• New Finishes in Either Pre-Screened or No-Wire Models

Now there's an even larger variety of our popular Screen Wickets. Choose from pre-screened or no-wire models in four finishes. All Wickets include a stainless steel latch, a plastic pull tab, and an aluminum continuous hinge.

ALUMINUM WICKETS

AW600BF	Bronze	Charcoal Fiberglass
AW800WF	White	Charcoal Fiberglass

Minimum order: 1 each. All Aluminum Wickets can be combined for quantity pricing.

CRL SCREEN SUPPLIES
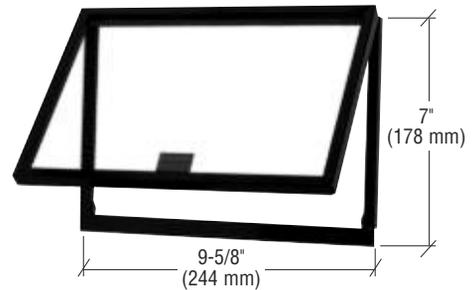

CRL 5/8" x 5/16" Roll Formed Aluminum Spreader Bars

- **Prevents Screen Frame From Bowing In**
- **Easy to Install**
- **Four Finishes to Choose From**

5/8" x 5/16" (15.9 x 7.9 mm) box type Spreader Bar made of .025 mil (.64 mm) thickness roll formed aluminum. Adds rigidity and strength to large size screens. Almost always installed across the mid-point of the screen's longest side. Installs with our Cat. No. WSC112 Spreader Bar Clips.

CAT. NO.	FINISH	STOCK LENGTH	QTY/CASE
WSSB58M	Mill	12' 2" (3.7 m)	50
WSSB58GRY	Gray	12' 2" (3.7 m)	50
WSSB58BRZ	Bronze	12' 2" (3.7 m)	50
WSSB58W	White	12' 2" (3.7 m)	50

Minimum order: 1 stock length. A Packing Charge will be added to orders of fewer than 12 stock lengths. Stock lengths longer than 98" (2.49 m) must ship common carrier, unless you specify we cut them for U.P.S. A Cutting Charge will apply. Finishes can be combined for quantity pricing.
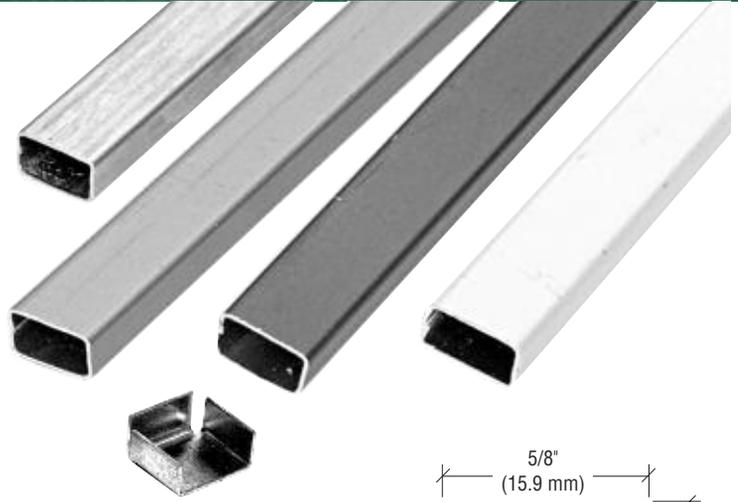

CAT. NO.	FINISH	DESCRIPTION
WSC112	Mill	Spreader Bar Clips

Minimum order: 100 each. Must be ordered in increments of 100.

5/8" (15.9 mm) · 5/16" (7.9 mm)
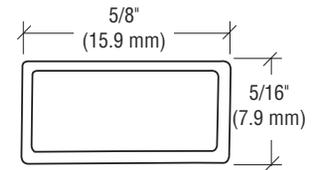

CRL 7/16" Extruded Aluminum Splicing Bars

- **Accepts All 7/16" (11.1 mm) Box Type Screen Frame**

7/32" (5.6 mm) · 1" (25.4 mm)
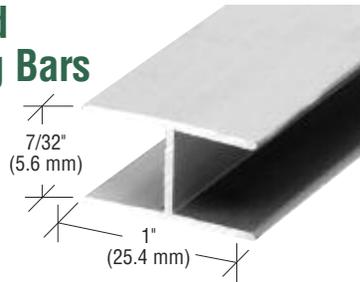

1" (25.4 mm) face width with 7/16" (11.1 mm) inside channel width "H" shaped screen Splicing Bar made from .045 mil (1.1 mm) thickness extruded aluminum. Used to splice two or more screens together.
NOTE: Splicing Bar is not cambered.
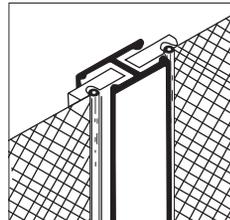

CAT. NO.	FINISH	STOCK LENGTH	QTY/CASE
WSHB7A	Clear Anodized	12' 2" (3.7 m)	50

Minimum order: 1 stock length. A Packing Charge will be added to orders of fewer than 12 stock lengths. Stock lengths longer than 98" (2.49 m) must ship common carrier, unless you specify we cut them for U.P.S. A Cutting Charge will apply.

CRL 1/2" x 1/2" Roll Formed Aluminum Angle Stops

- **Typical Applications Include Using as a Back Stop for Flush Screen Frame Installations**
- **Pre-Punched for Fasteners**
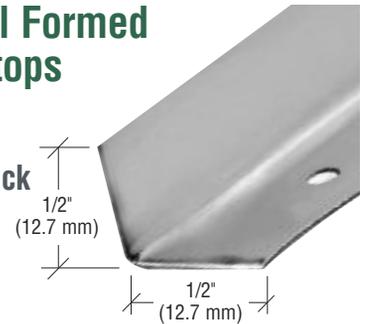

1/2" (12.7 mm) · 1/2" (12.7 mm)

1/2" x 1/2" (12.7 x 12.7 mm) Angle Stop is made of .025 mil (.64 mm) thickness roll formed aluminum. Pre-punched 1/8" (3.2 mm) holes every 6" (152 mm).
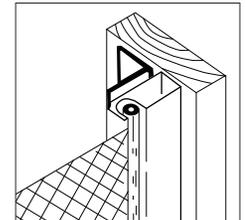

CAT. NO.	FINISH	STOCK LENGTH	QTY/CASE
WSAS12M	Mill	12' (3.6 m)	50

AWS2547W	White	20" (508 mm)	25" to 47" (635 to 1194 mm)

Minimum order: 1 each. Finishes can be combined for quantity pricing.

CRL Screen Retainer Spline

- **High Quality Vinyl Holds Screen Wire Securely**
- **Economical 15 Pound Bulk Rolls**

CRL Screen Retainer Spline is a high quality serrated, hollow core vinyl for repairing, rescreening or fabricating window, door and patio screens. Black is best used with bronze frame and/or charcoal color screen wire; gray blends well with aluminum screening and frames. Bulk rolls are easy to handle and your best value.

CRL Foam Core Screen Spline

- **New Sizes**
- **More Resilient and Versatile Than Vinyl**

Foam Core Screen Spline has more compressibility than Vinyl Spline, and therefore will work in a broader range of spline groove widths. The .270 diameter is an excellent substitute for metal U-channel spline.

BLACK CAT. NO.	APPROX. SIZE	FT./ROLL
FSS120	.120"	500' (152.4 m)

FS344BL	.344" (8.7 mm)	500' (152.4 m)

Minimum order: 1 roll. Sizes can be combined for quantity pricing.

CRL Screening Systems

CRL ScreenEze™ Screen System

- **Stronger and More Durable than Ordinary Screen Systems**
- **Easy to Install - No Stretching, No Staples, No Spline**
- **Safe, Versatile, and Cost Effective**
- **Painted Self-Drilling Screws Included**

This patented ScreenEze™ System is an easy-to-install two-piece snap design which does not require spline or rolling tools. The base is extruded aluminum, and the snap cap is extruded vinyl. Simply attach the base along the entire edge of the inside or outside perimeter of your opening. Lay your screen wire on the face of the base angle and snap the vinyl onto one side. Then pull the wire across the opening, pulling just tight enough to take out the slack, and snap the vinyl cap onto the opposing side. As the vinyl cap depresses onto the base, the wire is pulled into the cap channel thereby stretching the wire. There's no need to worry about bending or bowing the base angle since it will be firmly attached to the frame opening with self-drilling screws 10" apart (painted screws are supplied). The ScreenEze™ System works with all 18 x 16, 18 x 14, and 20 x 20 mesh fiberglass screen wire. Angular openings are no problem, just measure the opening and miter the ends of the frame. As an added bonus, the screen wire can be removed during the cold winter months and replaced with clear vinyl to give an additional thermal break and air seal. Set Includes: Extruded Aluminum Angle, Vinyl Cap, and painted Screws. **NOTE:** Screen wire not included.
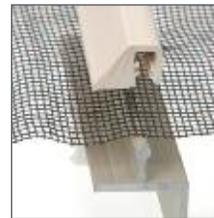

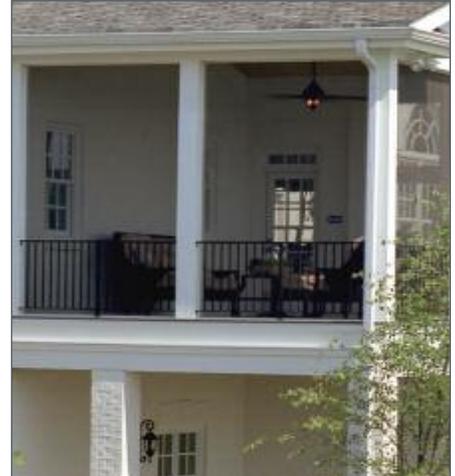

1. Position Vinyl Cap over the Aluminum Bead.

2. Snap Vinyl Cap onto the Aluminum Bead so it's fully seated.

SCREENEZE™

CAT. NO.	COLOR	LENGTH
SEZ96BRZ	Bronze	96" (2.4 m)
SEZ96S	Sand	96" (2.4 m)
SEZ96W	White	96" (2.4 m)

Minimum order: 1 set. Packing charge added to orders of less than 10 sets. Colors can be combined for quantity pricing.

CRL Screen Tight™ System

- **Vinyl Screening System for Professionals and "Do-It Yourselfers"**
- **Low Maintenance, Never Needs Painting**
- **No Rusty Nails, Staples or Loose Screens**

CRL Screen Tight™ Vinyl Screen Frame is a common sense approach to screening a porch or sun room area. The base attaches to existing 2x4 or 4x4 wood framing with wood screws, roof tacks, or staples. **NOTE:** Screen wire and spline not included.

Cap
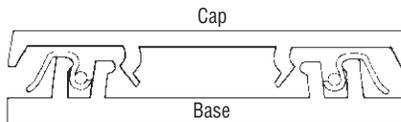

Base

A. Base attaches to 2x4 or 4x4 wooden frame.
B. Insert screen and spline into the spline groove.
C. Cap snaps onto base.

Design Your Own Custom Windows With CRL Grids and Muntin Bars

- Simulates French or Colonial Windows
- Exterior Applied Aluminum Grids
- Interior Applied Muntin Bars

CRL Ribbed Aluminum Grid

- **Available in 96"** (2.4 m) Lengths
- **Exterior Applied**

.045" (1.6 mm)
3/4" (19.1 mm)

This CRL Ribbed Aluminum Grid stock is designed to be installed onto existing glass windows to produce a French or Colonial window appearance. The Grid is applied to the window surface using Cat. No. RTV408C Clear Silicone as an adhesive.

CAT. NO.	COLOR
GR090BRZ	Bronze
GR092W	White

Minimum order: 50 each. Lengths can be shipped via UPS. Finishes and sizes can be combined for quantity pricing.

CRL Muntin Bars

- **Fit Inside Spacer Frame to Create Colonial-Style Insulating Glass Units**
- **Easy to Fabricate**

CRL Muntin Bars add a distinctive flair to your Insulating Glass units. They are ideal for the fabrication of Colonial-style windows. Muntin Bars are cut to size, and then assembled with CRL Muntin Bar Clips before being placed inside the unit.

For a professional 'crisscross' effect, use the CRL Manual Muntin Bar Notcher or the CRL Air Powered Muntin Bar Notcher and secure with the proper CRL Internal Muntin Joiners (see page CL64).

Stock lengths of Muntin Bars are 12' 8" (3.9 m). There are two available finishes that will complement the trim of almost any home.

CAT. NO. 36006BRZ

CAT. NO. 36009BRZ

36004W	36004BRZ	3/4" x 3/16" (19 x 4.8 mm)	50

Minimum order: 1 stock length. A Packing Charge will be added to orders fewer than 20 combined lengths. Stock lengths longer than 98" (2.49 m) must ship common carrier, unless you specify we cut them for U.P.S. A Cutting Charge will apply. Sizes and colors can be combined for quantity pricing.

CRL Internal Muntin Joiner

• For Joining Notched Muntin Bars

The CRL Internal Muntin Joiner holds the notched bar intact during the grid and frame assembly. It makes assembling Muntin Bars easier and more manageable, especially for larger sized Insulating Glass units. Two sizes fit most applications.
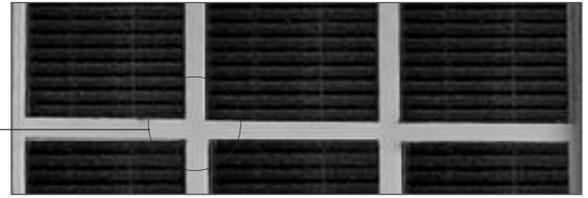

CAT. NO.	FITS BAR	QTY/BOX
AM04	36004/36006	100
AM609	36009/36012	100

Minimum order: 100 each. Must be ordered in increments of 100.
All Muntin supplies can be combined for quantity pricing.

CRL Flexible Muntin Locator

• Secures Sunburst and Wagon-Wheel Windows

Use the CRL Flexible Muntin Locator to secure sunburst and wagon-wheel windows in their frames. The flexible end pin helps eliminate unsightly gaps. They are an excellent aid in the fabrication of Insulating Glass units.
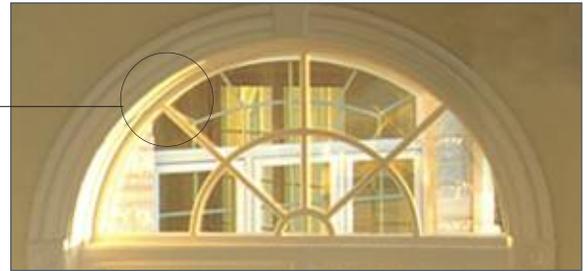

CAT. NO.	FITS BAR	QTY/BOX
AM06	36004/36006	100
AM12	36009/36012	100

Minimum order: 100 each. Must be ordered in increments of 100.
All Muntin supplies can be combined for quantity pricing.

CRL Sunburst Muntin Joiner

• For Circle Top Windows
• Use With 36012 Muntin Bars Only

CRL Sunburst Muntin Joiners make half and full-circle windows easy to fabricate. The white, flexible nylon holds the muntin bar securely, producing great looking wagon-wheel windows. These Joiners are made for use with CRL 36012 Muntin Bars only.

CAT. NO.	FITS BAR	QTY/BOX
AM601	36012	100

Minimum order: 100 each. Must be ordered in increments of 100.
All Muntin supplies can be combined for quantity pricing.

CRL Muntin Clips

• Designed to Work With CRL Muntin Bars
• Made From Durable Nylon

CAT. NO. 61071   **CAT. NO. 61070**   **CAT. NO. 61072**   **CAT. NO. 61073**

CRL Muntin Clips are designed to fit tightly in CRL Muntin Bars to properly secure the Muntin Assembly within the air space of an Insulating Glass unit.
